1945

A close-up photograph of a postage stamp. The stamp features a grid of numbers, including 2.5, 2.2, 2.1, 2.0, 1.9, 1.8, 1.7, 1.6, 1.5, 1.4, 1.3, 1.2, 1.1, 1.0, 0.9, 0.8, 0.7, 0.6, 0.5, 0.4, 0.3, 0.2, and 0.1. The numbers are arranged in a grid pattern, with some numbers appearing in larger, bolder fonts than others.

A color calibration target, likely a Munsell Color Services Lab chart, featuring a grayscale step wedge and color patches. The grayscale steps are labeled 1 through 10, with corresponding numerical values for density and colorimetric data. The color patches are labeled with their respective Munsell colorimetric values (L\*, a\*, b\*) and are used for ensuring color accuracy in digital imaging.

| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |
| Na            |            |      |      |        |       |     |      |

1945

A close-up photograph of a white fabric, likely a shirt, featuring a black grid pattern of numbers. The numbers are arranged in a 3x3 grid, with the top row showing 1, 2, 3, the middle row showing 4, 5, 6, and the bottom row showing 7, 8, 9. The numbers are bold and black, contrasting sharply with the white background.

BRIDE

1945

1945

A close-up photograph of a 3x3 grid of numbers on a device. The numbers are arranged in a 3x3 grid, with the top row containing 1, 2, 3, the middle row containing 4, 5, 6, and the bottom row containing 7, 8, 9. The numbers are black and the background is light.

A close-up photograph of a postage stamp. The stamp features a grid of numbers arranged in a 3x3 pattern. The numbers are: 23, 22, 21 in the first row; 20, 19, 18 in the second row; and 17, 16, 15 in the third row. The stamp is partially obscured by a dark, textured object, possibly a piece of paper or a stamp sheet.

| Sotcl         | Edith      | F    | 19   | 13254  |       | 2    |      |
| Somme         | Frederic   |      | 19   | 13284  |       | 2    |      |
| Sord          | Frances    |      | 20   | 13484  |       | 5    |      |
| Solomon       | Hilda      |      | 20   | 13593  |       | 5    |      |
| Sopp          | Evelyn     | L    | 20   | 13704  |       | 6    |      |
| Sorkta        | Mary       |      | 20   | 13741  |       | 8    |      |
| Sorley        | Emilia     | L    | 21   | 14405  |       | 12   |      |
| Solomon       | Pauline    |      | 21   | 14595  |       | 13   |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |
| So            |            |      |      |        |       |      |      |

## NAME OF BRIDE

[illegible]

1945

A close-up photograph showing a hand holding a pen, writing on a document. The document features a grid of numbers, including 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, and 100. The numbers are arranged in a grid pattern, with some numbers being bolded. The hand is writing on the grid, and the pen is visible in the foreground.

## BRIDE

[illegible]

1945

A close-up photograph of a hand holding a pen, writing on a document. The document features a grid of numbers, with the numbers 12, 13, 22, and 23 visible. The hand is positioned over the grid, and the pen is in the process of writing.

# 30X

The Micrographics Corporation

Certification of Residual Thiosulfate Level

On May 30 1990, microfilm roll # 132 of

New York Marriage

was tested for residual thiosulfate using the Methylene Blue Method for Measuring Thiosulfate as described in American National Standards Institute Standard IT 9.1. Results of the test indicate a residual thiosulfate level of 0.030 g S.O.<sub>2</sub>/g<sup>m</sup>. This is within the archival limit of .014 g/m<sup>2</sup> specified for archival quality microfilm products.
